Warranty:

All of our products come with a three year warranty on all parts.

Manufacturer Defects:

Defective parts will be replaced at no cost to you. Please send an e-mail to cs@rushcreeklogfurniture.com including photos of the defective part(s) and we will send replacements. PLEASE NOTE: Cracks in logs are not defects. They may develop during the log drying process and do not affect the stability of the piece in any way, and add to the rustic appeal of your log furniture.

If your product needs service, please be advised that Rush Creek reserves the right to decline service when the product is found to be excessively worn, altered in any way, or when damage is caused by acts other than defective workmanship or materials. This warranty is void if the product has been subject to abuse. For service under this warranty, please contact Rush Creek. Please provide your receipt as proof of purchase.

Tools Needed For Assembly:

Screwdriver

Level

Assembly Tips:

If you are using an electric screwdriver for assembly, set it at low torque and do not over-tighten the hardware.

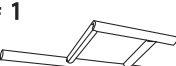

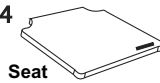

Care:

Apply lemon oil with a soft cotton cloth. Do not use products with silicone; these may cause damage to the finish. Do not allow the wood to come in contact with any type of paint remover.

CONNECTIONS:

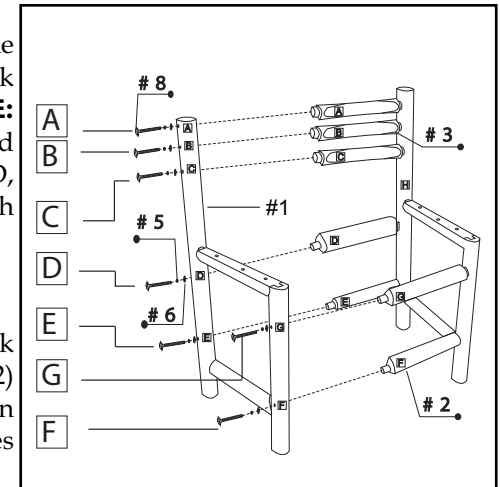

Changes in temperature and humidity may cause the wood to dry out, which can cause the bolts to loosen. Check the bolts periodically to make sure they are still tight. DO NOT put your wood rack directly against hot radiators or other sources of heat. This may cause the wood to dry and crack.

Chair Parts List

# 1  Side Panel 2 Pieces	# 2  Leg Support 4 Pieces	# 3  Back Support 3 Pieces	# 4  Seat 1 Piece
# 5  1/4" Washer 14 Piece	# 6  5/16" Washer 14 Piece	# 7  Flathead Screw 6 Pieces	# 8  Bolt 14 Pieces
# 9  Wood Cap			

Step 1

Lay chair side panel (#1) on the floor with the holes for the back and leg supports facing up. **NOTE:** Each side panel, back support, and leg support are labeled A, B, C, D, E, F, G. Please correspond with stickers. See diagram.

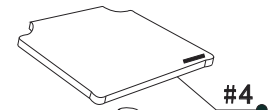

Step 2

Brush the pointed end of back support (#3) and leg support (#2) with wood glue (#10) first, then push in components into the holes on the side panel.

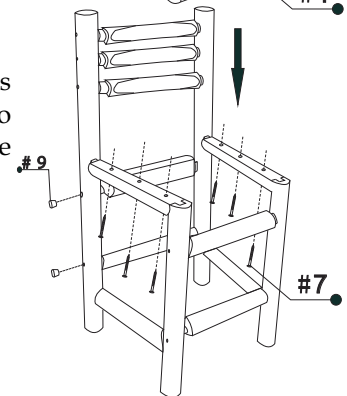

Step 3

Take the other side panel and line up the holes with the leg supports and back supports sticking out from the side panel on the floor.

Step 4

When the side panel is firmly fitted, attach bolts (#8), 1/4" washer (#5) and 5/16" washer (#6) to the side Panel. Do not completely tighten at the point, just make them snug.

Step 5

Holding both side panels roll the chair on the opposite side and repeat step 2 and 4.

Step 6

On a level surface set the chair on its legs and push down making sure all 4 legs are touching the floor. Finish tightening all of the bolts (#8) on both sides. Place the chair seat (#4) in place and using screws (#7) tighten from the bottom. Using wood caps (#9) to fill the holes.
